

Optimising CRM and Billing Platforms for Competitive Advantage

**WHAT
GOT
US HERE**

**WON'T
GET
US THERE**

Growth in renewable generation, demand response systems, and mass market demand raise the bar on retail performance

Shifts in the generation mix or wholesale market structure

Demand response shifts value out of the wholesale market

Volumes shift from C&I to new sources of demand

Retail excellence is essential to translate this growth into value

New or existing players with **strong retail positions** and **demand orchestration capability** can gain share or change pricing dynamics in periods of low or volatile wholesale prices

Platform Choices

Platform Choices

In-House
Internal resource
utilisation

Pros

- Full control
- Custom fit
- Alignment

Cons

- Higher investment
- Requires high internal skills
- Possibility of slower adoption

Platform Choices

Pros

- Access to global best practice
- Rapid development
- Lower upfront costs
- Access to specialised expertise

Cons

- Possibly less flexibility
- Integration challenges with existing systems
- Needs robust governance

Outsourcing

External partner
delegation

Platform Choices

Hybrid

Blended internal and external expertise

Pros

- Modularity
- Flexibility to scale
- Leverage combined strengths

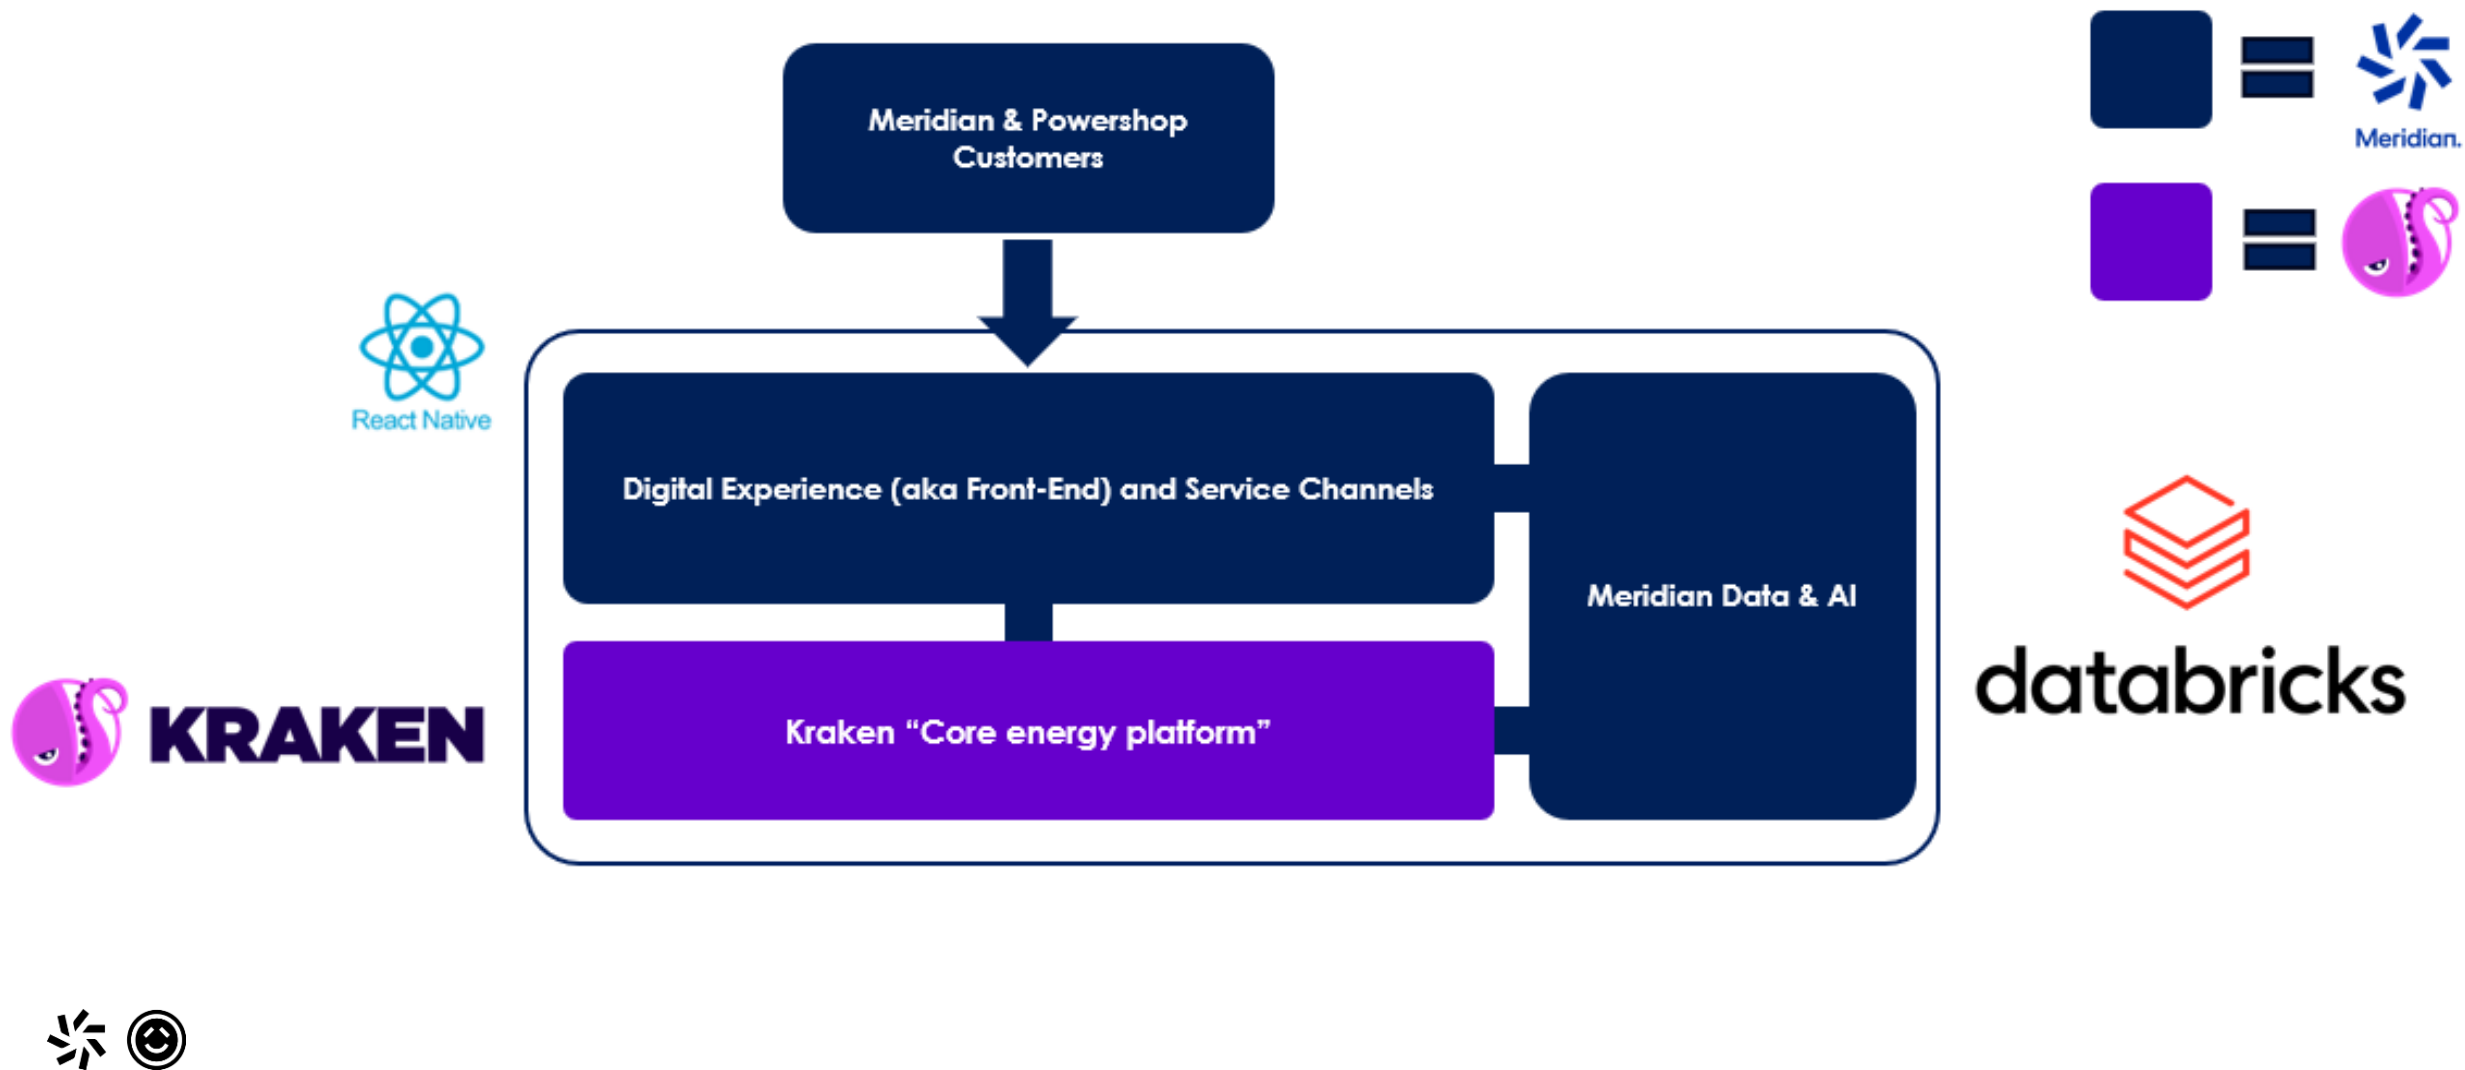

Cons

- Relies on good data structure
- Need the right in-house capabilities

Customer Focus

Delivery will prioritise customer and user experiences, as these are essential to realising the programme's benefits.

Build a Digital Business

Adapt business and processes to align with existing vendor patterns, enhancing flexibility and scalability, and providing a platform for data and AI enhancements.

Innovate and Adapt

Enable innovation, internally and customer facing, setting the platform to leverage AI and data.

Faster Value Delivery

The programme will be integrated into the Retail Operating Model to facilitate phased value delivery throughout the project.

Unlock Potential

The programme will unlock the potential of our teams and individuals across Retail by executing a smooth transition and providing opportunities to grow new capabilities.
